The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITORS’ RESPONSIBILITY

Our responsibility is to express an opinion on the company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, and both issued by the Institute of Chartered Accountants of India. Those standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing

and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the company's internal financial controls with reference to Financial Statements.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Financial Statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to errors or frauds may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes:

Director's Notes

Current Ratio decreased marginally from 2.12 to 2.01 due to reduction in current assets from Rs. 1,525.53 lakhs to Rs. 1,214.35 lakhs, partly offset by reduction in current liabilities.

Debt Equity Ratio remained stable at 0.01, as the company continues to have very low external debt compared to shareholders' funds.

Debt Service Coverage Ratio increased from 74.12 to 2,615.23 mainly because debt service obligation during the year was negligible at Rs. 0.16 lakhs, while earnings available for debt service remained positive at Rs. 405.85 lakhs.

Return on Equity Ratio decreased from 1.09 to 0.12 due to lower profit after tax during the year and increase in average shareholders' equity.

Inventory Turnover Ratio decreased slightly from 9.32 to 9.03, mainly due to increase in average inventory during the year.

Trade Receivables Turnover Ratio improved from 3.27 to 9.37 due to significant reduction in average trade receivables and increase in revenue from operations.

Trade Payables Turnover Ratio increased from 0.14 to 9.98 due to increase in purchases/cost of goods sold and movement in average trade payables.

Working Capital Turnover Ratio improved from 5.04 to 10.31 due to increase in net sales and efficient utilization of working capital.

Net Profit Ratio decreased from 0.19 to 0.03 due to lower profit after tax during the year, mainly on account of higher cost of materials consumed, depreciation, and other expenses.

Return on Capital Employed decreased from 0.70 to 0.16 due to lower EBIT during the year and increase in capital employed.

Return on Investment increased from 4.01 to 4.81 due to increase in net return on investment/reserves against the cost of investment.

Auditor's Notes

Based on our verification of the accounting ratio statement, the ratios have been recomputed using the figures appearing in the audited financial statements for the year ended 31 March 2026 and comparative figures for the year ended 31 March 2025.

The significant variations in ratios are primarily attributable to changes in profitability, working capital levels, trade receivables, trade payables, inventory movement, and low debt servicing obligations during the year. The Debt Service Coverage Ratio is exceptionally high due to negligible debt service cost during the year.

Subject to management's explanations and the basis of computation adopted, the ratios are arithmetically in agreement with the corrected financial statement linkages. Comparative ratios should be read along with the regrouping/reclassification of previous year figures, wherever applicable.
